

The DR 4.2 AMP™ is certainly the world's most versatile and unique multi-purpose pipeline mapping system. With a proven track record on virtually every continent, this multi-diameter system has easy handling features and provides the most accurate results on pipeline location.

A unique system of exchangeable centralizing wheel units gives the DR 4.2 AMP™ an operational range of 3.5" ID (90mm) to 58" ID (1473mm). Whether the pipeline is made of steel, concrete, PE, or PVC, this mapping system can be used to accurately locate any pipe.
